Welcome to the *Read* Magazine

Read is a new magazine published in the UAE to encourage participation of the teaching and learning community to champion reading in the home, school, work or college and library by focusing on role models

To achieve this we plan to:

- Publish twice a year
- Expand range of contributions
- Foster an inclusive community
- Fuel interest and debate
- Produce quality and quantity
- Focus on teaching & learning
- Nurture, support & encourage
- Reflect and listen to members

Read will be a superior publication that will be designed to feature articles, views reports, reviews, lesson plans, news, events, stories, letters, resources, ads, teaching and learning ideas, profiles, competitions and awards. We will have regular writers respected internationally as well as first timers. Contributions are welcome from educators, students, parents, staff, and librarians on issues that are relevant to our readers. The magazine will celebrate achievements of the Read SIG project that will focus on those who read in Arabic or English.
